SUMMARY

I'm a passionate and curious developer with a strong foundation in the MERN stack, Java, and Data Structures & Algorithms. I enjoy building responsive websites that not only look good but also solve real-world problems in a meaningful way. I'm always eager to learn new technologies, take on challenges, and improve my skills. I thrive in collaborative environments and bring a positive, growth-oriented mindset to every project I work on.

PROJECTS :

Wanderlust – Travel Destination Listing App [LINK](#)

MAY-JUN 2025

Tech Stack: MongoDB, Express.js, EJS, Node.js, HTML, CSS, JavaScript, Passport.js

Built a full-featured web application for users to discover and share travel destinations, following the MVC architecture for clean code organization. Implemented server-side rendering using EJS templates, and styled with custom CSS and HTML for a responsive user experience. The backend uses Express.js and MongoDB for efficient data handling and storage.

Key Features:

- User authentication & authorization using Passport.js (local strategy)
- CRUD operations for listings with validation and error handling
- Review system with nested routes and access control
- Flash messages, custom middleware, and form sanitization
- RESTful routing and clear project structure for scalability
- Deployed on Render for public access

This project demonstrates strong backend development skills, a deep understanding of full-stack JavaScript, and the ability to build secure, scalable applications using modern web technologies.

Bhopal Tourism– City Travel Guide Web App [LINK](#)

JUL-AUG 2025

Tech Stack: MongoDB, Express.js, EJS, Node.js, HTML, CSS, JavaScript, Passport.js

Developed a dynamic tourism web application that showcases key travel spots in Bhopal. Built using the MVC architecture for clear separation of concerns and maintainability. The app uses EJS for server-side rendering and Express.js with MongoDB for backend operations and data persistence.

Key Features:

- User authentication with Passport.js and secure login/session handling
- Tourist spot listings with full CRUD functionality
- Image uploads, location descriptions, and individual detail pages
- Review and comment system with user permissions
- Clean and responsive UI with HTML/CSS and vanilla JavaScript
- Middleware for flash messages, form validation, and route protection
- RESTful routing and hosted live on Render

EDUCATION

IES University of Bhopal MP

Sep 2023 - Sep 2026

Bachelor of Computer Application : CGPA 8.26.

Saryu Secondary High School

Mar 2020 - Mar 2022

Intermediate (Science) : 73.2%.

SKILLS

- **Languages :** Java, JavaScript, Python (basic)
- **Frameworks:** React, Express, Bootstrap, Tailwind
- **DataBase :** Sql, NoSql
- **Tools :** Git, GitHub , MySQL , MongoDB

ACHIEVMENTS / CERTIFICATES

- **Java Programming :** Certified in Core Java Programming by NPTEL (IIT Kharagpur) JUL 2024
- **DSA with Java :** MERN Stack Development completion certificate by (Apna College) May 2025
- **Full Stack Web Developer :** DSA With Java completion certificate by (Apna College) AUG 2025
